

Bright by Text is a free parent and caregiver messaging program that sends tips and resources promoting child development, targeted to a child's age from 0 to 5 years old. It is designed to be relevant to today's families, providing quality information and trusted resources to any caregiver, including hard-to-reach, low income families and informal caregivers. The messages are comprised of research-based content from Bright by Three and other trusted providers and include PBS and Vroom content.

impact evaluation

Bright by Text delivers bite-sized doses of the same research-based content Bright by Three has been delivering to families for over 20 years. Outside evaluators determined the program has positive effects on parent and caregiver attitudes and behaviors, as well as children's academic performance into elementary school. In addition to rigorous in-house evaluation, demographic, risk factor, and program engagement data, Bright by Three also partners with independent researchers and academic institutions to advise and evaluate our methods.

about bright by three

Bright by Three is a Colorado-based nonprofit that provides parents and caregivers of children prenatal to three with the tools needed to promote lifelong learning and success. By providing simple, age-appropriate tips, resources and materials, Bright by Three helps parents learn the importance of talking, reading, praising, and playing with their child every day.
