Confidentiality:

CASA volunteers must adhere to the confidentiality policy. (Standard 7.E.7.b)

Violation of this policy will be grounds for termination of the court appointment and ongoing service as a CASA.

- A. The CASA shall maintain strict confidentiality as to the case and all proceedings in which the volunteer is involved. The CASA shall request only that information which the volunteer is authorized to receive.
- B. If it is necessary to obtain any privileged/confidential information about someone who is directly related to the case but is not the child/ren, the CASA must obtain from that person a written release of information which allows the professional, hospital or treatment center to discuss the matter with the CASA.
- C. While a person may sign a release allowing the CASA to obtain confidential information he/she may not want to authorize disclosure to other parties on the case and/or their attorneys. The CASA should review the signed release form very carefully and seek guidance from the Coordinator if the CASA Volunteer has any questions at all.
- D. The CASA is not allowed to disseminate documents to any of the parties, their attorneys, and or collateral sources, which are, covered by state and/or federal confidentiality laws. These documents may include drug and alcohol evaluations/records; involuntary mental health treatment and rape crisis center information; and some criminal histories. Those covered by federal law usually are stamped, "This information has been disclosed to you from records whose confidentiality is protected by Federal law (and) prohibits you from making any further disclosure." A general authorization for the release of medical or other information is NOT sufficient for this purpose."
- E. The CASA will take appropriate measures to ensure that confidential records may not be observed by casual observers (family members, etc.)
- F. The CASA should not promise a child or a party to the case that statements will be kept secret or confidential. The CASA should proceed on the assumption that all statements made or relied on in reaching recommendations will be subject to disclosure to the court and other parties.

The CASA must not mention names of individuals involved in the case or provide facts which would identify the case or parties. The CASA must never discuss a case for purely conversational purposes, even in general terms, with anyone.

Media Contact:

CASAs should not make any comments, to the media, about any CASA cases. Any general comments about CASA should be discussed with program staff prior to talking with the media. All comments or questions should be directed to the Executive Director or Board President.

Social Media:

Social media tools, when used appropriately, can be a powerful tool to increase awareness, support and a sense of community for those engaged in advocacy for abused and neglected children. A thoughtful approach to online conversation and interaction among people online (on blogs, social networking, link-sharing, etc.) can enhance the reputation of *CASA of Adams and Broomfield Counties'* movement and help recruit needed supporters and volunteers.

While *CASA of Adams and Broomfield Counties* encourages CASA staff, board members and volunteers to join the global online conversation, we also believe it is important that those who choose to do so understand what is recommended, expected and required when they discuss CASA-related topics—whether at work or on their own time. Our ability to serve children as a cause depends on the trust and support of the public, and it is critical that we tell our story well—and handle the confidential information entrusted to us responsibly.

The following guidelines will help you engage in online conversations about your involvement with *CASA of Adams and Broomfield Counties'* cause in a way that is appropriate, yet still interesting.

Online Communication and Social Media Guidelines

1. Be transparent. Identify yourself and your role at the CASA program (staff/volunteer/board member) when you discuss CASA-related matters. Write in the first person. If you have a vested interest in something you are discussing, be the first to point it out. Be clear that you are speaking for yourself, that the opinions expressed are solely those of the author and do not necessarily represent the views of *CASA of Adams and Broomfield Counties* (unless, of course, you are posting as part of your employment responsibilities for the program—as a communications or online outreach manager, for example).

2. Always comply with the law in regard to copyright/plagiarism. Never post someone else's work without his or her express permission (other than short quotes that comply with the "fair use" exceptions).

3. **Be aware of laws related to libel and defamation of character.** Defamation of character can lead to lawsuits against the author of the statement and will reflect negatively on the CASA cause. In choosing your words or content, imagine your supervisor and your family reading everything you post.

4. **Be respectful.** Don't pick fights. Be the first to admit and correct your own mistakes. You should show proper consideration for other's privacy and for topics that may be considered objectionable or inflammatory, such as politics and religion.

5. **Be considerate.** Remember that anyone, including fellow volunteers and CASA staff, may be actively reading what you publish online. Refrain from any communication intended to bash, discredit or embarrass the CASA program, families, board members, donors or your colleagues. If you have suggestions for improvements, please state them constructively or, better yet, go through the proper channels to air your concerns and share your suggestions.

6. **Be accurate.** Even though your posts may be primarily made up of personal opinion, do your research well and check that your facts are accurate. Make sure you have permission to post any copyrighted or confidential information (e.g., images, statistics), and be careful about posting or linking to items that may contain viruses.

7. **Be committed.** If you decide to jump into online communication, do so with a commitment to post regularly and well. Link to others and show your unique contributions. Make it interesting and have fun!

8. **Try to add value.** Does your posting provide worthwhile information and perspective? Does it help you, your coworkers, volunteers and supporters better understand and feel more connected to our cause? Does it build a positive sense of community?

9. **Respect work commitments.** Please remember that blogging and other social networking activities—unless specifically assigned as part of your employment—are personal and should be done on your own time. The obvious exception is if you have specifically been assigned to perform an online activity related to your responsibilities as a CASA employee or volunteer.

10. **Don't reveal confidential information.** Sharing stories that illustrate the value of CASA advocacy for children is often the most powerful way to engage the public in our cause and promote empathy for the children we serve. However, National CASA Quality Assurance standards and the policy of CASA of Adams and Broomfield Counties require:

- Respect for the children's and families' rights to privacy in regard to personal information
- Adherence to the confidentiality restrictions imposed by law and CASA policies and procedures

It is unacceptable to discuss online any identifiable details of cases and to post pictures that include children from a dependency and neglect case.

Program Volunteer Child Advocate Handbook *Revised 1.18.17*

It is acceptable to discuss general details and to use non-identifying pseudonyms so long as the information provided does not contain information recognizable to the family or others associated with the family or case. For example, use general terms such as “youth” instead of “13-year-old girl.” You should be careful to protect the dignity of families, children and social agencies, even if they are not named.

Volunteers and staff should not link to personal pages (or become online “friends”) of families or children they may encounter in their capacity with the CASA program. This includes email addresses, instant messenger names, blogs, photo sharing sites and social networking sites such as Facebook, MySpace, Twitter, LinkedIn and YouTube.

11. When in doubt, do not post. Staff and volunteers are responsible for their words and actions, wherever they are. Exercise sound judgment and common sense, and if there is any doubt, DO NOT POST IT. In circumstances where you are uncertain please contact your CASA Volunteer Coordinator, the Program Director, the Director of Marketing and Development or the Executive Director for guidance.

12. Know that the internet is permanent. Once information is published online, it is essentially part of a permanent record, even if you “remove/delete” it later or attempt to make it anonymous. If your complete thought, along with its context, cannot be squeezed into a character-restricted space (such as Twitter), provide a link to an online space where the message can be expressed completely and accurately.

13. Be mindful that what you post can be a reflection on CASA and can influence the perception and reputation of the program. Be respectful of all individuals, races, religions and cultures.

Investigation: (Standard 7.E.5)

The CASA should determine whether court orders are being followed in an appropriate and timely manner; whether a permanency plan has been created; whether appropriate services, including reasonable efforts, are being provided to the child and family; and whether the court ordered treatment plan is in compliance. Involvement with the family in these related areas should be focused on the best interests of the child(ren) on the case. The CASA should participate in any planning or treatment team meetings involving the child to stay informed of permanency plan developments. The volunteer should monitor the case by visiting the child twice a month or more if necessary to ensure that essential needs are being met. The CASA should also research permanent connections for the child(ren).

Program Volunteer Child Advocate Handbook *Revised 1.18.17*

Court Order: (Standard 5.A.1)

Once a CASA volunteer accepts a case, a court appointment acceptance form is filed with the court and a Court Order is signed by the Judge or Magistrate. All parties to the proceeding will receive copies.

Meetings: (Standard 7.E.5)

- **With the Caseworker, GAL and other professionals:** The CASA will meet with both the caseworker and the GAL. CASAs should notify the caseworker, GAL and other professionals by email of their appointment to the case within one week of appointment. It can be helpful to schedule a meeting with both parties, but if this is not possible the CASA may wish to meet individually with these professionals.
- **Children:** Arrange for an initial meeting with the child/children on your case within 2 weeks of appointment. It is required that you meet with your child/children at least twice per month. An exception may be granted at the discretion of program staff and with the completion of the Standard Exception form for monthly visit standard.
- **Parents:** Arrange a brief introductory meeting with the family to explain the CASA role and answer any questions the parents may have. If the children are in the home, this is a good time to introduce yourself to the children. It may be helpful to have this meeting with the GAL so that both roles can be defined at one time. This should be done within three weeks of receiving court appointment to the case.
- **Foster Parents/Children:** If children are in a foster home, the CASA will contact the foster parent to let them know a CASA has been appointed, let them know about the program and arrange to meet with the child and foster parents. A meeting should also occur within three weeks of the appointment. CASA may want to take the children for a walk or sit in another room to assure confidentiality of conversation with the children.
- **Other Professionals:** If the children are school age, the child's teacher will generally be the next person contacted to gather pertinent information regarding the child. If the child is in special education it is expected that the CASA will attend the IEP (Individual Education Plan) staffing. All CASAs are required to complete an educational advocacy checklist for children who are in preschool or older. School records can be obtained by contacting the secretary at the school children attend. In addition to educational advocacy, other contacts might include: therapists, doctors, lawyers and counselors who are working with the child or the parents.

Telephone Numbers:

A CASA should carefully consider the implications of giving their work and home telephone numbers to children or family members. The decision to give out these numbers is up to the CASA. The CASA may wish to consult with the CASA Advocate Coordinator/Peer Coordinator in making this decision or obtain at own expense a cell phone. Messages may be left at the CASA office and they will be relayed to the CASA.

Transportation of Children or Family Members: (Standard 7.E.8)

For liability and safety reasons, CASAs must submit requests to transport CASA children to their Advocate Coordinator/Peer Coordinator in advance. CASA of Adams and Broomfield Counties recommends that CASAs be judicious in their requests to transport children. Transportation may be approved in certain situations, as determined by the Advocate Coordinator/Peer Coordinator, if the following are in place:

- A. CASA must have a current (within past year) Motor Vehicle Record on file, as well as a copy of the volunteer's driver's license and auto insurance. CASAs should have adequate auto insurance coverage in compliance with Colorado state law. Volunteers who do not have an MVR and a current and valid driver's license on file, or do not have proof of adequate, current and valid auto insurance will not be allowed to transport children.
- B. The CASA must ask for permission from their Advocate Coordinator/Peer Coordinator each time that they wish to transport a child. If the request is approved by the Coordinator, the CASA must accept responsibility for transporting the child/ren and sign a Transportation Waiver each time before the transportation may take place. This waiver can be signed in person, scanned and emailed or faxed. The original will be placed in the office case file and the CASA will receive a copy for their case file.
- C. The CASA must document each time they transport a child. This documentation will include: date, time of transportation, total time spent transporting the child (ren), location and purpose of visit. The signed documentation will be given to the Advocate Coordinator/Peer Coordinator and signed by the Advocate Coordinator/Peer Coordinator. The original will be placed in the office case file and the CASA will receive a copy for their case file.
- D. The CASA will abide by all federal, state and local transportation and safety laws.

This policy allows for limited transportation on a case-by-case **and** visit-by-visit basis. Although some transportation will be allowed, this policy is intentionally restrictive for liability and safety reasons and strict guidelines will be adhered to.

When considering transportation of CASA kids, the following points are important to remember:

Program Volunteer Child Advocate Handbook Revised 1.18.17

- It is not the role of the CASA to transport kids or adults to visits, appointments, staffing, etc. This is the role of the caseworker, case aides, foster parents and social services.
- CASAs are advocates for children versus mentors. Although it is important to establish a relationship with the children on your case, it is also important to remember appropriate boundaries.

Each time that you wish to transport a child, you must adhere to the above policy. All requests must be submitted to your Advocate Coordinator/Peer Coordinator. Your Advocate Coordinator/Peer Coordinator will make a decision as to whether the request is appropriate. We must have a copy of a recent Motor Vehicle Record, current and valid driver's license and current and valid car insurance on file!

Conceal Weapon:

In accordance with federal law on concealed carry, a CASA may not carry a firearm on the property of any school, courthouse, airport, or other location protected electronic security screening, or anywhere concealed carry is prohibited by law. Additionally, CASA of Adams & Broomfield Counties strongly recommends that CASAs licensed to carry a concealed weapon refrain from carrying their weapon when in the presence of their CASA child(ren), and that any such weapon be appropriately secured at all times.

Reporting: (Standard 11)

Maintaining Accurate Records:

- A. The official case file for CASA is kept in the CASA office. The court file or portions thereof can be copied for the volunteer to use in making contacts related to the case. The official record is never removed from the office.
- B. All records obtained from other agencies should be sent to the CASA office. CASA will copy the records and provide a working copy to the CASA through mail or in person. Confidential records are not to be electronically transmitted to computers used by persons other than the volunteer. If a volunteer has a fax or e-mail, which is strictly confidential, this should be noted in the volunteer's file and materials can be electronically transferred.
- C. Forms for these reports in hand-written and/or electronic form will be provided by CASA of Adams and Broomfield Counties. Records are not to be altered after the original writing of the record. If records are kept electronically, it must be in a confidential file. These completed forms may be electronically transmitted to the CASA office.

Contact Notes: Each CASA keeps a log in Optima, the program's web based online data tracking system, which notes all contacts (in-person contacts, telephone, fax, e-mail, or written) with all individuals who are significant to the case, including attempts to reach parties which were unsuccessful. This log will include the time spent, the type of

contact (phone, personal, etc), miles/expenses, and date of the contact and should include appointments, interviews and information gathered about the child and the child's life circumstances. These notes should be objective.

Monthly Data: By the end of each month the CASA will enter a summary of case involvement and all case contacts into Optima, the program's web based online data tracking system. This also includes statistics on the amount of personal contacts, hours, mileage and dollars that the volunteer contributed.

Court Reports: Court reports are required at every hearing (unless excused by you Coordinator) and will be provided to all parties to the case. As part of the court report, CASAs will make recommendations for specific appropriate services for the child, and when appropriate, for the child's family. These official documents are written by the CASA and reviewed by the Advocate Coordinator/Peer Coordinator prior to submission to the court. The program staff will not alter the reports or recommendations without the knowledge or agreement of the CASA. The pertinent case information will be shared with all parties on the case. Reports shall be submitted to the CASA office 2 weeks prior to the court hearing. If the Senior Program Coordinator/Peer Coordinator does not receive the report 2 weeks prior to the court hearing, the CASA may not be able to speak in court. This time allows for the review and editing of reports if necessary. CASA Senior Program Coordinators/Peer Coordinators are responsible for final editing and distribution of all court reports. They will correct grammatical and spelling errors automatically. Although Advocate Coordinators/Senior Program Coordinators have final discretion on what is turned into the court, the factual information included by the CASA will not be significantly changed. CASAs may not distribute any written material to any parties to the proceedings involved in your case or outside your case, without initially discussing it and providing the material to the Senior Program Coordinator Coordinator/Peer Coordinator first for edit and consideration.

Reporting Suspected Child Abuse and Neglect: (Standard 7.E.7.a)

- A. The CASA should immediately report any suspected child abuse or neglect which is observed or discovered during the course of the CASA assignment. A report should be made by calling the child abuse and neglect hotline at **303-412-5212, (Adams County Social Services Department) or 720-887-2271, (Broomfield Health and Human Services)**. CASA of Adams and Broomfield Counties is a mandatory reporting agency.
- B. The CASA should notify the assigned caseworker and Guardian ad Litem that this report has been made. The CASA should also report to the program staff as soon as possible after making the report. A full written report should be submitted to CASA within 24 hours.

E-mail: casa17th@casa17th.com

C. The CASA does **not** investigate the possible abuse. The CASA Program is a mandatory reporting agency per the Memorandum of Understanding. The social services department will determine the need for and whether to complete an investigation.

Cooperation in Criminal Investigation of Alleged Child Abuse

If any officer, director, employee or volunteer of the organization should be asked to produce information or documents, or discuss the facts of any alleged child abuse with any investigator or counsel of record for the office of the prosecuting attorney or the defense attorney:

- No documents (written reports of the incident) shall be produced without having been properly subpoenaed. Cooperation to facilitate the service of subpoenas should be extended as professional courtesy.
- In the event that any investigator or attorney of record wishes to conduct a personal interview, the person requested to appear may appear with legal counsel at such interview.
- If a telephone interview is given, care should be taken to assure the identity of the contact person. It is suggested that the staff or volunteer call the office through the main switchboard and be transferred to the person requesting the interview.
- It will not be necessary to be subpoenaed to this personal interview, although every effort should be taken to coordinate the time and date of the interview with the legal counsel.
- Before granting an interview, the volunteer and staff should review what may be discussed in the interview.

Advocacy:

Formulating Objective Recommendations

The CASA, with the support and supervision of program staff, will make recommendations in the court report regarding placement, visitation and appropriate services for the child and family.

Staffings and related meetings

CASAs should attend staffings and other related meetings that are significant to the safety and well-being of the child.

Appear at Hearings

The CASA will attend all court hearings to present information and advocate for the child's best interests. Certain circumstances may be approved by the advocate's Coordinator. The CASA is responsible for being aware of scheduled court dates and preparing in advance by gathering information and submitting reports. If the volunteer is unable to appear at a hearing, the volunteer should notify CASA program staff as far in advance as possible. The CASA should assure that the child's best interests are being represented at every stage of the case.

Facilitation: (Standard 7.E.5.c)

The CASA is often in a position where it is appropriate to facilitate communication between parties in the case. In difficult situations or when conflicts arise on cases, it is often appropriate to have a staffing, which is a meeting where all parties are invited to discuss the future direction of the case and what services should be provided. Although it is typically not the role of the CASA to call a staffing, it is appropriate on an as needed basis. Please discuss this option with your Advocate Coordinator/Peer Coordinator if you think it may be appropriate.

CASAs are expected to communicate with all parties to the proceedings. Failure to communicate can result in dismissal from the case. It is recommended that CASAs email their Advocate Coordinator/Peer Coordinator, GAL, and Caseworker about any visits, important contacts, or important information gathered regarding the child on the case.

Appointment to a Case: (Standard 7.E)

- A. After acceptance and completion of training by CASA of Adams and Broomfield Counties, volunteers will be sworn in as Officers of the Court by the presiding juvenile judge.
- B. The Advocate Coordinator/Peer Coordinator will choose several case options for CASAs to review based on submitted preferences. The general issues in a case will be discussed with the CASA and the CASA has the option to accept or reject a specific case based on their experience.
- C. CASAs will be assigned to one case at a time and may work on more than one case simultaneously only in exceptional circumstances. Exceptions for more than two open cases at the same time may be granted with the discretion of program staff. CASAs assigned to 3-5 cases must complete a Standard Exception Form for exceeding the two case limit. CASAs may not be assigned to more than 5 open cases at one time.
- D. The CASA has no authority to function on a case until officially appointed by order of the court, after being assigned to a specific case by the program staff.
- E. When a CASA is appointed, emphasis must be on the children in need of support rather than the needs of the parents. SAFETY of the children is the primary goal.

Program Volunteer Child Advocate Handbook *Revised 1.18.17*

- F. The first six months of service will be a probationary period during which extra supervision and support will be provided by program staff.

Supervision and Support: (Standard 7.D)

- A. After being assigned to a case, a CASA will meet with the program staff to discuss initial planning for action on the case. A preliminary case plan will be outlined to be used as a guide for the CASA's first steps on the case. Program staff will schedule regular case conferences (in person or via telephone) to review progress on the case with the CASA. Frequency of these consultations will be based on the stage of the case and the experience level of the volunteer.
- B. CASAs are encouraged to contact program staff at any time when questions arise about their work as a CASA. In addition, CASAs and their Coordinator/Peer Coordinator will communicate on a regular basis via email or telephone regarding your case, including information such as:
- develop and review a plan for independent fact gathering
 - discuss findings and observations
 - review progress in the case
 - discuss strategies for serving the best interest of the child.
- C. Program staff and the CASA will discuss the CASA's work on the case, the monthly data requirement, court reports, in-service training and comments from the judge and other parties, noting areas of achievement and areas in which additional support is needed. The CASA will have an opportunity to request an internal staffing at any time to problem-solve ideas and solutions related to their case.
- D. CASA of Adams & Broomfield Counties values its volunteers and has ongoing programs to recognize the efforts, dedication and hard work of our volunteers. Activities include, but are not limited to: (Standard 7.D.5)
- Employee recognition letter from Judges
 - Volunteer of the Month
 - Notes of appreciation and support

Program Volunteer Child Advocate Handbook *Revised 1.18.17*

Peer Coordinator Model Frequently Asked Questions (FAQ)

How will the new staffing model affect me?

It won't. From your perspective it should be "business as usual" other than we are now calling CASA Coordinators...Senior Program Coordinators.

Are our community partners (Professional Team Members, Social Services, Court) on board with the new model?

All of our community partners have various levels of knowledge & understanding about the new model. There is still a lot of opportunity to help educate our partners about the new model and we will be working to make that happen.

How do you recruit the "right" person for the Peer Coordinator position?

We have developed a Peer Coordinator Job Description that we believe captures the role, responsibilities and desired qualifications for the position. Peer Coordinators will be recruited from our CASA Advocate base so we will have a history of working with them. We also have nomination & selection processes in place.

Will Peer Coordinators have sufficient training?

Peer Coordinators will complete 5 hours of Initial PC training and participate in ongoing trainings focusing on peer coaching and skills. Peer Coordinators are also encouraged to attend any CASA 201 class that they need a refresher on.

Peer Coordinators will remain on any current cases and have the choice of serving on subsequent cases if desired.
